

Management System Policy Statement

Technolog Ltd and Utility Data Services Ltd are dedicated to providing our customers with the best possible product and service, whilst endeavouring to avoid harm to the environment, our employees, visitors and all others who may be affected directly or indirectly by our activities.

We believe in demonstrating our commitment to continual improvement through the implementation of our Management Systems, compliant with the requirements of ISO9001:2008, ISO14001:2004, BS OHSAS 18001: 2007 and annexes IV and VII of Directive 94/9/EC (also known as the ATEX Directive – for equipment and protective systems intended for use in potentially explosive atmospheres).

In particular we shall:

- o establish and maintain an Integrated Management System*
- o ensure compliance with existing and future quality, environmental, social accountability, and health and safety legislation and any other initiatives or requirements to which the company subscribes*
- o liaise with all relevant external bodies and work with our own staff to improve our quality, environmental, social accountability, and health and safety performance, prevent accidents and cases of work related ill health and maintain safe and healthy working conditions*
- o identify and reduce significant environmental effects, health and safety risks, and pollution which may arise from our processes, operations and work activities*
- o provide and maintain safe plant, premises and equipment*
- o minimise, re-use and recycle all materials wherever practicable*
- o provide appropriate quality, environmental, social accountability, and health and safety information and training for our employees, and encourage them to apply good practice, both at work and at home*
- o discuss quality, environmental, social accountability, and health and safety issues regularly at the highest levels of the company and consult with our employees on matters affecting their health and safety*
- o liaise with suppliers and customers to facilitate the best possible products, service, safety, social accountability, and environmental practices and to promote recycling*
- o to review and revise this policy as necessary at regular intervals. At minimum the policy will be reviewed annually*

Sound management principles and practices shall be applied to meet these commitments, and to achieve demanding and publicly available performance objectives. We shall set those objectives annually; wherever practicable, they shall be quantitative and we shall monitor our progress towards meeting them.

Arrangements to review our objectives and performance reviews may be made by writing to the Management Systems Manager, who will also welcome any observations on the quality, environmental, social accountability or health and safety aspects of our activities.

This policy has been endorsed and approved by:

Stephen Drury
Operations Director

Stephen Howard
