Why do we have a gender pay gap?

Legally, men and women must receive equal pay for:

- the same or broadly similar work;
- work rated as equivalent under a job evaluation scheme; or
- work of equal value.

We are committed to equal opportunities and equal treatment for all employees, regardless of sex, race, religion or belief, age, marriage or civil partnership, pregnancy/maternity, sexual orientation, gender reassignment or disability. We have a clear policy of paying employees equally for the same or equivalent work, regardless of their sex (or anything else listed above). We:

- carry out regular pay and benefits audits;
- evaluate job roles and pay grades to ensure fairness.

We are confident that our gender pay gap is not because we pay men and women differently for the same or equivalent work. Instead, our gender pay gap is because men and women work in different roles and those roles have different salaries.

The table above shows our workforce divided into four equal-sized groups based on hourly pay rate. Band A includes the lowest-paid 25% of employees (the lower quartile) and band D covers the highest-paid 25% (the upper quartile).
